ABOUT FUNNYBONE TOYS:

While most people love to play games, very few appreciate the “art” that goes into their creation. This is because, for the most part, the art is hidden in the background, secondary to game play. But a new game design company was tired of seeing the art of games taking a back seat to play...so they decided put artwork on equal footing. Funnybone Toys was created in 2011 to provide products that are a true combination of form, function, and beautiful, minimalist design. One of our favorite elements of design is color, so color reigns supreme in every one of our products. We launched Funnybone Muse in 2013, allowing us to offer other items that inspire us, that are outside the toy and game category. Every product that comes out of our design studio will show our company's commitment to beautiful, minimalist design.
