Rolli : Making Your Stationery Prettier with Ease

The graphic is enclosed in a yellow rounded rectangle. At the top, the word "Rolli" is written in a large, brown, cursive font with a trademark symbol, and "STAMPS" is written in a smaller, brown, sans-serif font below it. Underneath, the text "FOR CREATION OF ARTS & CRAFTS PROJECTS" is written in orange, bold, sans-serif font, followed by "AGES 12 AND UP" in a smaller, black, sans-serif font. To the left is a blue illustration of a roll of stamp paper with a smiling face and the word "Rolli" written on it. To the right is a blue square with white text that reads "CREATE UP TO 100FT OF CONTINUOUS PATTERN ON ALMOST ANYTHING!" and "NO INK PAD REQUIRED" in smaller text below. Below this is a black speech bubble with white text that says "A PRODUCT BY FUNNYBONE™ MUSE (BOOTH 7380)". At the bottom, there is a row of ten different colored stamp rolls, each with a unique pattern of small illustrations.

Do you make homemade invitations or maybe your own stationery? Rolli Stamps are pretty darn awesome for helping you out in designing your own custom cards. They're also amazing for kids.

Rollis are so easy to use, it's crazy. You just roll and the stamps go. They have various pictures and some are scenes, that roll as you go. There's no ink pad and no mess. I received four different Rolli Stamps and each are unique in there own ways. The cupcakes have different styles and make a nice party design.

Have you been traveling? Oh my gosh, you'll love the cute traveling dogs. This one has a dog with luggage and comes in a purplish-blue. The hedgehogs are on a roll throughout their Rolli Stamp and are having loads of fun being playful. The traveling train is also pretty awesome in it's own way. It has stars, mountains, a plane, rainbow and train on it's rolling stamp. It's actually quite beautiful. I would love the scenery.

Rolli Stamps has a variety of designs!

Each one only comes in one color, I hope they expand each design to come in various colors as they do designs. They're great fun for kids in any art project, and mess free. Rolli Stamps create awesome borders and dividing lines while making an invitation or stationery as well. They have flowers, lace, hearts, ribbons, sea lions, penguins and many more. I think you will find one that suits your needs and personality. I cannot wait to see what other designs they come out with!

ABOUT FUNNYBONE TOYS:

While most people love to play games, very few appreciate the "art" that goes into their creation. This is because, for the most part, the art is hidden in the background, secondary to game play. But a new game design company was tired of seeing the art of games taking a back seat to play...so they decided put artwork on equal footing. Funnybone Toys was created in 2011 to provide products that are a true combination of form, function, and beautiful, minimalist design. One of our favorite elements of design is color, so color reigns supreme in every one of our products. We launched Funnybone Muse in 2013, allowing us to offer other items that inspire us, that are outside the toy and game category. Every product that comes out of our design studio will show our company's commitment to beautiful, minimalist design.
