SPIROT by FUNNYBONE TOYS WINS TOP FUN AWARD 2016

## SPIROT by FUNNYBONE TOYS WINS TOP FUN AWARD 2016

Spirot has that rarest of qualities: it can be replayed endlessly without losing an ounce of its entertainment value. The game play is simple but ingenious. After setting up a playing board of 9 black & white photographic cards in a 3 X 3 grid, players take turns stacking a colored card from their hand onto a matching photograph on the board. The goal is to create a 3 card sequence (horizontal, vertical, or diagonal) in which those three cards all have either 1) the same color and same pixel pattern, or 2) the same color but different pixel patterns, or 3) different colors but the same pixel pattern, or 4) different colors and different pixel patterns. Each time a player creates a sequence, he or she earns a point and can play another card. The first player to 5 points wins. Comparing and contrasting cards in search of a sequence develops a keen eye and deft thinking. The relative shortness (about 20 minutes) of this deliciously fun game allows players to frequently fulfill their hunger for a rematch in a single sitting. For 2 - 4 players.

### ABOUT FUNNYBONE TOYS:

While most people love to play games, very few appreciate the "art" that goes into their creation. This is because, for the most part, the art is hidden in the background, secondary to game play. But a new game design company was tired of seeing the art of games taking a back seat to play...so they decided put artwork on equal footing. Funnybone Toys was created in 2011 to provide products that are a true combination of form, function, and beautiful, minimalist design. One of our favorite elements of design is color, so color reigns supreme in every one of our products. We launched Funnybone Muse in 2013, allowing us to offer other items that inspire us, that are outside the toy and game category. Every product that comes out of our design studio will show our company's commitment to beautiful, minimalist design.
