Rolli Stamps Review

JESSICA | JANUARY 2, 2015

I was sent several Rolli Stamps to review with my kids and we had a blast with them. They are easy for my kids to handle and the stamp very easily. You just place and roll it along the paper you want stamped. They have a cute stamp on the outside so kids can easily recognize what stamp it is. I keep the stamps in a plastic pencil box to keep them organized and when we are ready to craft I just grab the box and my kids are stamping.

It has a see through cover for the stamp that is easy to remove and to put back on.

One of my kids made me a cute Christmas card and even stamped the envelope with the Rolli Crazy for Cupcakes. Each Rolli can create up to 100 feet of continuous stamps.

So are you ready to get creative? Head over to Funnybone Toys and check out these little stamps. I just love them. You can also find **Funnybone Toys** on **Facebook** and **Twitter**.
