

Funnybone Toys & Funnybone Muse | Rolli Review

HEATHER JANSSEN | JANUARY 24, 2015

I was sent these super fun adorable Rolli stamps to try out and review. I was sent 18 different stamps to try out, play with and get my craft on with. These stamps are perfect for crafting:

- Paper Cards
- Holiday Letters
- Wrapping Paper
- Scrap-booking Projectsfbmuse
- Awesome Borders
- Newsletters
- Scrap Paper Better
- Wallpaper
- Celebratory Paper
- Personal Stationery
- Misc Art Projects
- Making Life Less Boring

There is no ink pad required and you can get over...

One hundred feet of continuous print out of the stamps. Each stamp retails for \$9.99 and you can purchase them online...or see if they are carried in your local store...

I love how the stamps have designs that continuously change as they are rolled out. There are a ton of different stamps and they come in so many different great colors making them great for any craft project that you may have in mind and a must have for any and all scrapbookers! The first thing that came to mind for me was decorating envelopes. Decorated envelopes are so expensive and this would be great to personalize them to fit any occasion. Also so easy to use perfect for just about any age group. They are small so they are easy to store and fit perfectly into the palm of your hand.

- Love that they are fun and crafty
- That they are cute and that there are so many uses for them
- Wish that they were refillable

Show them some support and give them some social media loving!
