

Product Review | Rolli Stamps

HEATHER HOLBROOK | FEBRUARY 11, 2015

Rolli Stamps from Funnybone Toys are adorable little one inch **self-inking rubber stamps** that can be used on all kinds of paper crafting projects from greeting cards, tags, gift wrap, scrapbook pages, stationary and more! Rolli stamps come in **18 different designs** with images and themes like dogs, cats, flags, hearts, cupcakes, travel, cooking and knitting in fun ink colors. With these stamps you can roll up to **100 feet of continuous pattern.**

I recently got a chance to try out several different designs of Rolli stamps and made some cute cards with them. For my first card (shown above) I used the fun **Hedgehogs Playing stamp** and made my own custom ribbon by rolling the stamp onto plain twill ribbon.

Next I used the **Rolli We Heart You stamp** on a scalloped oval shaped card, cutting out one heart as an accent.

For my travel card I stamped the oh so cute **Dogs Traveling stamp** repeatedly and added a sentiment in the center.

You can also curve your Rolli stamps while your using them to make fun patterns like I did on this card with the **Nesting Dolls Rolli**.

Lastly I made a solid pattern with the **Lotsa Lace stamp** by lining up the edges of each rolled image.

The possibilities with these fun stamps are endless! They are quick and easy to use, no ink pad needed and no mess so they are perfect stamps for kids too! Each stamp retails for \$9.99.
